

BiOWiSH™ Septic Rescue

Fast-Acting Septic Rescue For Failing/Failed Septic Systems

What is BiOWiSH™ Septic Rescue?

BiOWiSH™ Septic Rescue is a microbial-based treatment that restores failing septic systems back to optimal working condition.

It features 100% natural and non-toxic components that support the nutrient take up by plants, lawns, and the overall health of your local ecosystem.

BiOWiSH™ Septic Rescue can save you thousands of dollars by averting an imminent mechanical pump-out of your septic tank or (even worse) the replacement of your entire septic system.

Benefits

- No pump-out needed, guaranteed or your money back*
- 100% natural, safe for your family and the environment
- Could save you thousands in costly repairs or pump-outs
- Revolutionary technology used in sewage treatment plants
- Safe for all plumbing and piping
- Includes three 3.5 oz. / 100 g packets that are designed to restore, boost and maintain your septic system

*Warranty terms and conditions apply. Please visit septic-rescue.com for details.

How Does BiOWiSH™ Septic Rescue Work?

Septic Rescue is powered by BiOWiSH™, a revolutionary technology used in sewage treatment plants to rapidly digest organic waste and eliminate odor causing compounds.

Other bacteria and enzyme-based products rely on building large colonies of bacteria to digest waste. This process takes time, can produce odors in the short-term and can result in adding to the sludge build-up in your septic system.

BiOWiSH™ Septic Rescue produces powerful biocatalysts that do not rely on large amounts of biomass to digest waste — this reduces solids in septic systems.

Effective Treatment

BiOWiSH™ Septic Rescue is the only effective treatment for septic systems that have reached crisis point. It is NOT a mere preventive product like other septic maintenance products available.

This product is guaranteed to restore your septic system to working condition. If BiOWiSH™ Septic Rescue does not work, please fill out our web form at biowishtechnologies.com/warranty with the requested information and we will reimburse you for the total purchase price of Septic Rescue.*

BiOWiSH™ Septic Rescue

Simple 3-Step Treatment

The BiOWiSH™ Septic Rescue Kit is an easy, 3-step treatment. The kit comes with 3 packets of powder that are applied over a 14-day period. Simply flush the powder into the toilet as described below and your job is done!

Day 1 - RESTORE

BiOWiSH™ technology helps break down sludge, fats and scum inside the septic tank. After using the first packet, you will notice reduced odors and a faster system when flushing or draining.

Day 7 - BOOST

Add second packet 7 days after the first packet to boost solid waste decomposition. Water will flow more freely to the drainfield as sludge and scum in the tank are digested.

Day 14 - MAINTAIN

Add the final packet 14 days after the first to help maintain high microbial performance in your system. After using the third packet, expect your septic system to be operating at optimum conditions. Continue to maintain every 3 months using BiOWiSH™ Septic Tank Maintenance.

All New Packaging - Same Great Product!

The front of the packaging features the BiOWiSH TECHNOLOGIES logo at the top left. To its right, it says 'Single Treatment 3 x 3.5 oz./100g doses'. The main title 'FAST-ACTING SEPTIC RESCUE FOR FAILING/FAILED SYSTEMS' is prominently displayed in large, bold, orange and white letters. Below this, a green banner reads 'POWERFUL BIOTECHNOLOGY BACKED BY INDEPENDENT RESEARCH DATA'. The central image shows a toilet and a septic tank with arrows indicating the flow of water and the action of the product. To the left of the toilet, a list of 'FIXES:' includes 'ODOR PROBLEMS', 'SYSTEM BACK-UPS', and 'RISING SEPTIC WATER IN YOUR YARD'. At the bottom left, a yellow circle contains the text '100% MONEY BACK GUARANTEE If your system needs to be pumped out*'. To its right, an orange circle says 'Save Hundreds of Dollars'. At the bottom, it states 'Suitable for all septic systems' and 'Treats up to 2,500 gallon tanks'. The bottom of the package has a dark blue band with the text 'SAFE, EFFECTIVE ALTERNATIVE TO PUMP-OUT SERVICES'.
