PRODUCT DOSING

General Recommendations

Product dosage rates can vary by species, age, management practices and other factors. For animal or site specific recommendations, please consult your local BiOWiSH™ Technologies distributor, email animalag@biowishtech.com, or refer to <http://www.biowishtech.com/userguides> for more details.

COMPATIBILITY

- Facilities which use mineral mixes, vitamins, ionophore products, and other common feed additives as part of their management practice can use BiOWiSH™ MultiBio 3PS in their feeding program.
- BiOWiSH™ MultiBio 3PS is compatible with antibiotics when the antibiotics are added to the mash feed, compound feed, total mixed or bunk ration, or water.
- BiOWiSH™ MultiBio 3PS will not operate effectively in the presence of some chemical products such as sanitizers above 3ppm. Always read and follow label directions for feed mix products.
- For best results, maintain a pH above 3.0 and below 8.0 in the liquid feed.
- For site specific compatibility information, please consult your local BiOWiSH™ Technologies distributor.
