

BiOWiSH™ MultiBio 3P

Animal Compound Pellet Feed Applications

PRODUCT NAME

BiOWiSH™ MultiBio 3P

PRODUCT USE

BiOWiSH™ MultiBio 3P is a direct fed microbial (DFM) for all animal species including ruminants, poultry, swine, finfish, and shrimp. BiOWiSH™ MultiBio 3P is a recommended feed additive for all growth stages.

GENERAL RECOMMENDATIONS

- Add BiOWiSH™ MultiBio 3P at a minimum of 500g (1.1lbs) per metric tonne (2204lbs) of finished animal feed through the pelleting process. Maintain recommended concentration by adding more BiOWiSH™ MultiBio 3P with each animal feed addition. For facilities with greater than 95°C for more than 25 minutes, please consult your local BiOWiSH Technologies distributor.
- Facilities which use mineral mixes, vitamins, ionophore products and other common feed additives as part of their management practice can use BiOWiSH™ MultiBio 3P in their feeding program. BiOWiSH™ MultiBio 3P is compatible with antibiotics when the antibiotics are added to the pelleted feed.
- Always read and follow label directions for feed mix products.

TECHNICAL SUPPORT

Please contact a distributor near you or email animalag@biowishtech.com.

KEY METRICS

Metrics to track include the following:

- Body Weight (BW)
- Daily Feed Intake (DFI)
- Average Daily Gain (ADG)
- Mortality
- Feed Conversion Ratio (FCR)
- Nutrient digestibility
- Heat stress issues
- Odor of manure
